HIRING MANAGER

• WINTER PARK/ORLANDO, FLORIDA, 32792

March, 2025

Dear Hiring manager,

My goal as an employee is to advance the values and needs of your organization. In the past I have been well rounded in my approach to work. I have been an unofficial leader and an example for my peers and fellow employees by doing work at an efficient pace to the point of taking over the jobs of others. I am a problem solver who can adapt to new environments. My best skill is my ability to learn and pick up on job needs and the new and evolving approaches to work by managers. In the future I look to live a sustaining life while building a comfortable and efficient work environment, I hope you will consider me for your position. Even without direct experience in the particular field I will be able to pick up quickly without your organization missing a step. Thank you.

Sincerely,
Dion Jackson
